Overview of Product Lines

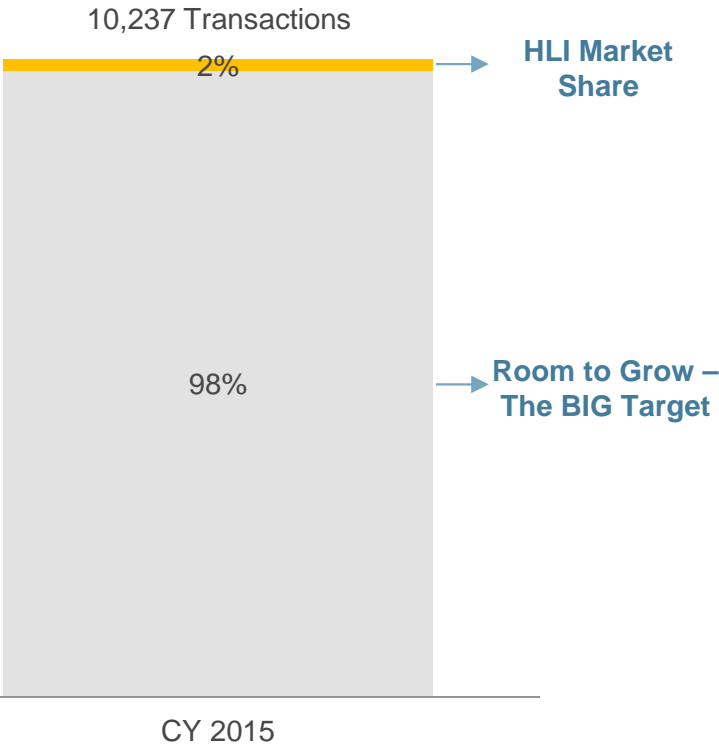

Corporate Finance Business

- Corporate Finance is a leader in the U.S. mid-cap space, which represented approximately 98% of M&A volume in CY 2015
- Our market share in the U.S. mid-cap space is less than 2%, based on the number of M&A transactions we completed in CY 2015
- The mid-cap space is meaningfully less volatile than the large-cap space, which, when combined with HLI's ongoing opportunities to increase its relatively low market share, generally results in less revenue "downside" in weaker M&A markets

Corporate Finance Business

- Announced U.S. M&A volume has a 5-year CAGR of 4.4%
- U.S. M&A revenues in our corporate finance business have a 5-year CAGR in excess of 15%, reflecting continued market share gains during the measurement period
- We continue to increase market share as a result of companies choosing to use an advisor, as well as taking market share from firms that don't have the same depth and breadth as the HLI platform

Financial Restructuring Business

- Deepest bench in the industry, with 43 MDs and 204 total finance professionals as of September 30, 2016
- A true global player, having closed transactions in more than 60 countries around the world since 2000
- Flexibility to work on large global restructurings as well as mid-cap restructurings
- With strong performance in a historically low interest rate and default rate environment and consolidating market share, we are poised to take advantage when interest rates and/or default rates begin to rise
